Description:

In a futuristic city, augmented reality Duels are all the rage. Duelists, using devices called D-Gazers, can interact with their environment and their opponents as never before. With more awesome monsters and unbelievable cards, the future of Yu-Gi-Oh! starts right here! Yuma finds out that the only way to help his brother return to normal is to collect all one hundred Numbers Cards. The power these cards give to the Duelist who wields them is immense, and many other Duelists are seeking them. Yuma must face these "Numbers Hunters," starting with the mysterious Kaito! Card included with the first printing only. Reads R to L (Japanese Style) for teen audiences.

Before I bought this book, I contacted The Bargain Bear who listed the item as factory sealed to make sure it was indeed a factory sealed copy with the yu-gi-oh card inside. They confirmed that it was, so I ordered the book. When it arrived I was very disappointed to see that it was not a factory sealed copy, and there was no card inside. I contacted them to try to get the correct copy, and they said it was a small family run business and that there could be no way it was the incorrect item, and never replied to my next message saying someone had to have made a mistake because it was not the correct copy. I ended up having to file an A-Z claim through Amazon. Very happy with Amazons fast and courteous service, but will NEVER buy from The Bargain Bear again. I would recommend you find another seller as well.
